EXPERIENCES

India-Itech |
Feb 2023 - Present
• As a MERN stack developer, I have developed a website for Indea-itech
• I have a strong foundation in JavaScript, React.js, Node.js, and MongoDB, which enables me to develop web applications

Function Up| Backend Developer Trainee
Sept 2022 - Feb 2023
• At FuntionUp, I worked as a Backend Developer Trainee and gained experience with **MongoDB**, **React**, **Express**, and **JavaScript**.
• I was involved in the entire software development process and collaborated with a team to deliver high-quality software
• I implemented a caching system using **Redis** which significantly **improved the performance** for one client's application
• My time at FuntionUp provided me with a strong foundation in backend development and technical skills.

Marwad Edu Pvt Ltd | Intern
Nov 2021 – May 2022
• Experience working on real-world software development projects as part of a team
• Excellent communication skills, with the ability to convey technical information clearly and concisely

Arahm Marketing | Intern
Oct 2019 – Jan 2021
• During my college years, I had the opportunity to work for Arham Marketing, a company that specializes in creating digital signatures
• I was tasked with using various software programs such as Panta Sign, e-Mudra, and V Sign to create digital signatures
• Through this experience, I not only gained technical skills but also developed my understanding of digital marketing.

PROJECTS

E-Commerce – Buyit • GitHub
• React • AWS S-3 • Bootstrap • Express • Mongo db • Mongoose • jwt
